Transition to the New Curriculum

A new curriculum for all engineering programs will take effect in the fall of 2010, with a transition period during the 2010/2011 academic year. All newly matriculated engineering students will adopt the new curriculum. Engineering students who have matriculated prior to the fall of 2010 may retain the curriculum based on their catalog year or adopt the new curriculum. The table below establishes equivalences between courses in the old curriculum and the new curriculum.

Prior to Fall 2010	Transition	After Spring 2011
ELE 342	ELE 243	ELE 243
ELE 343	ELE 346	ELE 346
MEE 270	MEE 254	MEE 270
EGN 362, ELE 262	EGN 260	EGN 260
MEE 150, MEE 251	MEE 154	MEE 150, MEE 251
MEE 341, MEE332, MEE 360	MEE 366	MEE 366

Following is the full schedule of required engineering courses for the next three academic years:
