

PORTLAND • GORHAM • LEWISTON • ONLINE

Dear Parent/Guardian,

The University of Southern Maine has a health center located on the Gorham campus where students may go to receive care. If your son or daughter is under eighteen years of age, they will need permission from a parent or guardian before we can provide treatment. This permission covers routine health care. Emergency care will also be provided if the situation warrants.

The centers are staffed by certified Medical Assistants, certified Nurse Practitioners, and a Physician consultant. Emergencies occurring after-hours or on weekends are managed by University Police, who arrange for rescue transport to a nearby hospital.

**Consent for Treatment (Written)**

Date \_\_\_\_\_

I, \_\_\_\_\_ (parent/guardian signature), give permission to the University of Southern Maine Health Service staff to treat my son/daughter \_\_\_\_\_.
