Course Detail: O_CLIMHOPE - HYBRID - Journey from Climate Doom to Active Hope

When you think about climate change and environmental degradation, do you experience feelings of sadness, helplessness, or anger? Do you want to leave these negative thoughts and feelings behind and take a thought-provoking journey to "active hope?" In this discussion-oriented class, you will explore the ideas of scientists, social scientists, and philosophers who have shown us how we could create a more hopeful story for ourselves. Discussion with classmates will consider this question: How can I become more active-and-hopeful-in protecting the Earth and ensuring the well-being of future generations? Repeat course - format will include in-person lectures and discussions, with the exception of the last two classes; these will be via Zoom.
