

Women Architects and Designers

Often overlooked in traditional design and architecture courses, twentieth century women designers profoundly shaped the way we perceive, experience, and enjoy our built environments, interiors, and decorative objects. In this course, we will explore the work and influence of such designers and architects as Elsie de Wolfe, Eileen Gray, Lilly Reich, Charlotte Perriand, Dorothy Draper, Ray Eames, Zaha Hadid, and others. Their lives and the beauty of their enduring designs are documented within the context of the social and political issues they faced, as they left their unmistakable imprints upon twentieth century design.
