

Apple at 50:

How it Revolutionized Computing and Transformed Daily Life

This course traces Apple's fifty-year history and its massive impact on personal computing, design, product culture, platforms and ecosystems, and daily life. Each session focuses on a different decade in Apple's history, from the birth of the PC in the late 1970s to the latest Apple silicon, VR headsets, and future iPhones. We will learn how Apple reshaped not just technology, but how people live, work, and communicate.
