Accelerated Graduate Pathway Guide
University of Maine MBA 2021-2022 (*SUBJECT TO CHANGE)

Undergraduate Program Check Sheet to be Used in Combination with Student's Major Check Sheet

Students pursuing the Accelerated Graduate Pathway to the UMaine MBA will be able to use up to 6 UMaine graduate credits to fulfill undergraduate *elective* credits. It is required that students work with their advisor(s) to create a graduation plan upon declaration of the pathway. This is important because 1) not all courses are offered every semester and 2) it will be advantageous to the student to build "room" into their elective credits for both the graduate-level courses and additional undergraduate-level prerequisites.

Additional info:

Approved undergraduate majors: All (though there are different pathways for School of Business majors and Engineering majors- see more below)

Minimum undergraduate GPA: 3.00

Graduate entrance exam: [GMAT](#) with a score of 500 or better (GMAT is waived for students with a GPA of 3.25 or above). This should be successfully completed *prior* to registering for first MBA courses so in a typical 4-year-plan this would be by early-spring semester of junior year. [GMAT study/ preparations](#) should be in fall of junior year.

Requirements to begin taking graduate-level courses: 90 earned undergraduate credits, completion of [UMaine MBA application](#) including essay, resume, and references and GMAT (if required)

Semester students can matriculate into the graduate program: Fall, Spring, Summer

Maximum graduate credit that can be applied to undergraduate degree: 6 credits

ALL MAJORS: Upon Declaration of Accelerated Pathway Program

Requirement	Completed
Graduation Plan Completed with professional or faculty advisor (to include all prerequisites)	

SCHOOL OF BUSINESS MAJORS: Undergraduate Prerequisite Courses & Graduate Courses

Course	Min. Grade	*Typically Offered	Semester Completed	Credits	Grade
Undergraduate Prerequisite Courses
