

STEP 01

FORM YOUR GROUP: Invite a manageable amount of people, typically between 3-7 students. Group study is most productive when it's on-going, not just the week of the exam.

STEP 02

PICK A TIME: Establish a time that works for everyone, at least for most weeks. Aim for a manageable amount of time; typically learners begin to get fatigued by the two-hour mark.

STEP 03

CHOOSE A LOCATION: Reserve a group study room in the USM Libraries, use an empty classroom, gather in a coffee shop, or meet virtually via Zoom (with audio, video and screen sharing).

STEP 04

ASSIGN TASKS: This involves each group member being responsible for specific content or concepts, and coming to the session prepared to explain it to the other members in the group.

STEP 05

TEACH THE CONCEPTS: Make sure each group member participates equally. Take turns teaching each other the content and asking questions.
