Electronic Course Evaluations (ECE): Syllabus Excerpt

The following excerpt can be used (or modified) for the course syllabus to inform students about the new electronic course evaluation initiative.

*USM’s has begun to use an Electronic Course Evaluation (ECE) for students to evaluate a course or instructor. Toward the end of the course, all students will receive an email notice (sent to the school email account) that asks you to complete your course evaluation online. This email will include a direct link to the course evaluation, and you will log-in by using your MaineStreet ID and password. You will only be able to access the online course evaluation during a specific time period, as noted on the email notice; therefore, be mindful of the deadline date.*

*Student ratings on the evaluation are very useful to your instructor if you answer thoughtfully and honestly. The responses you give are confidential and will be collected by the Office of Academic Assessment. After the final grades are posted, your instructor will receive a summary report of the student responses. All student feedback is valued and is being used for course and program improvement purposes. Thanks, in advance, for your participation.*
