Program Objectives

USM ART is a nationally accredited program that prides itself on giving students a rigorous studio experience, historical understanding of the complexity of art practices, and the critical skills needed to become informed visual artists, art educators and art historians.

USM ART offers liberal arts degrees in art history, studio arts, and art and entrepreneurial studies, which combines study of studio arts with courses in business, financial management and marketing. Students can customize their experience within these various degree options to meet their own needs.

USM ART programs offer a low student-teacher ratio, mentorship and peer learning. A sense of community flourishes within the department and is reinforced by the dedicated and attentive staff, who are all practicing artists or art historians. Capstone seminars are also offered in art education and art history.
