

School Efficiency Profile: Machias Memorial High School

School Information: 2009-2010	
School Demographics Special Education: 16.3% Free/Reduced-Price Lunch: 59.88% Limited English Proficiency: 0%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: Machias School Department	Location: Machias, Maine
Grade Span: 9-12	Enrollment: 135

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

Table 1. Machias Memorial High School Efficiency Profile			Met Criterion?	
Academic Performance and Return on Spending Criteria			Yes	No
Efficiency	Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓
		P2. Average school score on statewide assessment compared to expected score.		✓
		P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓
		P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓
		P5. School Graduation Rate compared to state average.		✓
	Return	R1. School's return on spending ratio compared to state ratio.		✓
		R2. School's return on spending ratio compared to expected ratio.		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Machias Memorial High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1135.05
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	21.92
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1135.05
Expected Grade 11 MHSA Score	1140.82

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	60.24
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	77.78
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Machias Memorial High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 1.99 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	1.99
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	1.99
Expected Return on Spending	4.59

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Madawaska Middle/High School

School Information: 2009-2010	
School Demographics Special Education: 13.55% Free/Reduced-Price Lunch: 43.46% Limited English Proficiency: 7.48%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: Madawaska School Department	Location: Madawaska, Maine
Grade Span: 6-12	Enrollment: 350

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

		Met Criterion?

To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Madawaska Middle/High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1140.00
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	44.28
State Percent Meets or Exceeds	40.78

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1140.00
Expected Grade 11 MHSA Score	1138.78

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	78.71
State Percent at least Partially Meets	70.49

Your school meets criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	93.02
State Average Graduation Rate	82.77

Your school meets criterion P5.

Criteria R1 & R2: Return on Spending of Madawaska Middle/High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.18 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	4.18
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	4.18
Expected Return on Spending	4.81

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

Criteria P1-P5: Academic Performance of Massabesic High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1139.45
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	39.24
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1139.45
Expected Grade 11 MHSA Score	1139.99

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	70.38
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	77.32
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Massabesic High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 5.74 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	5.74
State Return on Spending	4.51

Your school meets criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	5.74
Expected Return on Spending	5.07

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Mattanawcook Academy

School Information: 2009-2010	
School Demographics Special Education: 14.54% Free/Reduced-Price Lunch: 61.75% Limited English Proficiency: 0%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: RSU 67 Grade Span: 9-12	Location: Lincoln, Maine Enrollment: 399

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

		Met Criterion?		
Academic Performance and Return on Spending Criteria		Yes	No	
Efficiency	Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓
		P2. Average school score on statewide assessment compared to expected score.		✓
		P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓
		P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓	
		P5. School Graduation Rate compared to state average.		✓
	Return	R1. School's return on spending ratio compared to state ratio.		✓
		R2. School's return on spending ratio compared to expected ratio.		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Mattanawcook Academy

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1138.85
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	36.91
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1138.85
Expected Grade 11 MHSA Score	1139.79

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	71.21
State Percent at least Partially Meets	70.49

Your school meets criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	79.70
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Mattanawcook Academy

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.26 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	4.26
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	4.26
Expected Return on Spending	4.77

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Medomak Valley High School

School Information: 2009-2010	
School Demographics Special Education: 17.58% Free/Reduced-Price Lunch: 57.55% Limited English Proficiency: 0%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: RSU 40 / MSAD 40 Grade Span: 9-12	Location: Waldoboro, Maine Enrollment: 603

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

		P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓
		P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓
		P5. School Graduation Rate compared to state average.		✓
	Return	R1. School's return on spending ratio compared to state ratio.		✓
		R2. School's return on spending ratio compared to expected ratio.	✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Mountain Valley High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1136.94
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	29.77
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1136.94
Expected Grade 11 MHSA Score	1137.18

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	63.98
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	79.81
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Mountain Valley High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 3.9 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	3.90
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	3.90
Expected Return on Spending	3.60

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Mt Abram Regional High School

School Information: 2009-2010	
School Demographics Special Education: 11.9% Free/Reduced-Price Lunch: 58.63% Limited English Proficiency: 1.02%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: RSU 58 / MSAD 58 Grade Span: 9-12	Location: Strong, Maine Enrollment: 294

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

		Met Criterion?	
Academic Performance and Return on Spending Criteria		Yes	No
Efficiency	Performance	P1. Average school score on statewide assessment compared to state comparison score.	✓
		P2. Average school score on statewide assessment compared to expected score.	✓
		P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*	✓
		P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓
		P5. School Graduation Rate compared to state average.	✓
Return	R1. School's return on spending ratio compared to state ratio.	✓	
	R2. School's return on spending ratio compared to expected ratio.	✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Criteria P1-P5: Academic Performance of Mt View High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1137.14
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	34.20
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1137.14
Expected Grade 11 MHSA Score	1137.88

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	63.59
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	83.30
State Average Graduation Rate	82.77

Your school meets criterion P5.

Criteria R1 & R2: Return on Spending of Mt View High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.4 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	4.40
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	4.40
Expected Return on Spending	3.36

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Narraguagus High School

School Information: 2009-2010	
School Demographics Special Education: 15.98% Free/Reduced-Price Lunch: 68.51% Limited English Proficiency: 6.39%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: RSU 37 / MSAD 37 Grade Span: 9-12	Location: Harrington, Maine Enrollment: 219

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

		Met Criterion?		
Academic Performance and Return on Spending Criteria		Yes	No	
Efficiency	Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓
		P2. Average school score on statewide assessment compared to expected score.		✓
		P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓
		P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓	
		P5. School Graduation Rate compared to state average.	✓	
Return	R1. School's return on spending ratio compared to state ratio.		✓	
	R2. School's return on spending ratio compared to expected ratio.		✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Narraguagus High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1139.16
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	38.28
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1139.16
Expected Grade 11 MHSA Score	1139.90

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	71.45
State Percent at least Partially Meets	70.49

Your school meets criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	85.68
State Average Graduation Rate	82.77

Your school meets criterion P5.

Criteria R1 & R2: Return on Spending of Narraguagus High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.15 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	4.15
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	4.15
Expected Return on Spending	4.68

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Noble High School

School Information: 2009-2010	
School Demographics Special Education: 14.89% Free/Reduced-Price Lunch: 45.3% Limited English Proficiency: 0.88%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: RSU 60 / MSAD 60 Grade Span: 9-12	Location: North Berwick, Maine Enrollment: 1021

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

		Met Criterion?

Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Old Town High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1138.26
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	34.38
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1138.26
Expected Grade 11 MHSA Score	1139.77

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	65.64
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	73.82
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Old Town High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.8 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	4.80
State Return on Spending	4.51

Your school meets criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	4.80
Expected Return on Spending	4.25

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Orono High School

School Information: 2009-2010	
School Demographics Special Education: 19.1% Free/Reduced-Price Lunch: 30.82% Limited English Proficiency: 1.49%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: RSU 26 Grade Span: 9-12	Location: Orono, Maine Enrollment: 335

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

Table 1. Orono High School Efficiency Profile			Met Criterion?	
Academic Performance and Return on Spending Criteria			Yes	No
Efficiency	Performance	P1. Average school score on statewide assessment compared to state comparison score.	✓	
		P2. Average school score on statewide assessment compared to expected score.		✓
		P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*	✓	
		P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓	
		P5. School Graduation Rate compared to state average.		✓
	Return	R1. School's return on spending ratio compared to state ratio.	✓	
		R2. School's return on spending ratio compared to expected ratio.	✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Orono High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1142.92
State Comparison Grade 11 MHSA Score	1141.15

Your school meets criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	52.09
State Percent Meets or Exceeds	40.78

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1142.92
Expected Grade 11 MHSA Score	1145.79

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	76.48
State Percent at least Partially Meets	70.49

Your school meets criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	81.14
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Orono High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 6.12 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	6.12
State Return on Spending	4.51

Your school meets criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	6.12
Expected Return on Spending	6.04

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

Criteria P1-P5: Academic Performance of Piscataquis Community H S

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1138.12
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	32.22
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1138.12
Expected Grade 11 MHSA Score	1138.01

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	66.71
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	78.79
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Piscataquis Community H S

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.08 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	4.08
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	4.08
Expected Return on Spending	4.27

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Poland Regional High School

School Information: 2009-2010	
School Demographics Special Education: 17.4% Free/Reduced-Price Lunch: 44.06% Limited English Proficiency: 0.19%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: RSU 16 Grade Span: 9-12	Location: Poland, Maine Enrollment: 523

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

Table 1. Poland Regional High School Efficiency Profile			Met Criterion?	
Academic Performance and Return on Spending Criteria			Yes	No
Efficiency	Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓
		P2. Average school score on statewide assessment compared to expected score.	✓	
		P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*	✓	
		P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓	
		P5. School Graduation Rate compared to state average.		✓
	Return	R1. School's return on spending ratio compared to state ratio.		✓
		R2. School's return on spending ratio compared to expected ratio.		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Poland Regional High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1139.72
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	41.31
State Percent Meets or Exceeds	40.78

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1139.72
Expected Grade 11 MHSA Score	1139.56

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	71.66
State Percent at least Partially Meets	70.49

Your school meets criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	80.19
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Poland Regional High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.3 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	4.30
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	4.30
Expected Return on Spending	4.76

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Portland High School

School Information: 2009-2010	
School Demographics Special Education: 13.88% Free/Reduced-Price Lunch: 50.96% Limited English Proficiency: 25.03%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: Portland Public Schools Grade Span: 9-12	Location: Portland, Maine Enrollment: 879

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

Table 1. Portland High School Efficiency Profile			Met Criterion?	
Academic Performance and Return on Spending Criteria			Yes	No
Efficiency	Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓
		P2. Average school score on statewide assessment compared to expected score.		✓
		P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓
		P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓
		P5. School Graduation Rate compared to state average.		✓
	Return	R1. School's return on spending ratio compared to state ratio.		✓
		R2. School's return on spending ratio compared to expected ratio.		✓

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Portland High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1138.11
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	33.00
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1138.11
Expected Grade 11 MHSA Score	1141.30

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	54.79
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	74.71
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Portland High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 3.79 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	3.79
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	3.79
Expected Return on Spending	4.51

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Presque Isle High School

School Information: 2009-2010	
School Demographics Special Education: 17.59% Free/Reduced-Price Lunch: 52.02% Limited English Proficiency: 0%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: RSU 79 / MSAD 01 Grade Span: 9-12	Location: Presque Isle, Maine Enrollment: 580

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

School Average Grade 11 MHSA Score	1138.92
Expected Grade 11 MHSA Score	1138.69

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	67.76
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	71.73
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Rockland District High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 3.81 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	3.81
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	3.81
Expected Return on Spending	4.03

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Sacopee Valley High Sch

School Information: 2009-2010	
School Demographics Special Education: 16.5% Free/Reduced-Price Lunch: 57.04% Limited English Proficiency: 0.99%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: RSU 55 / MSAD 55 Grade Span: 9-12	Location: Hiram, Maine Enrollment: 406

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

Table 1. Sacopee Valley High Sch Efficiency Profile			Met Criterion?

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Sacopee Valley High Sch

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1137.96
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	34.83
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1137.96
Expected Grade 11 MHSA Score	1137.32

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	66.40
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	79.03
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Sacopee Valley High Sch

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 3.85 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	3.85
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	3.85
Expected Return on Spending	3.72

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: SAD 70 Hodgdon High School

	Return	R1. School's return on spending ratio compared to state ratio.		✓
		R2. School's return on spending ratio compared to expected ratio.		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Searsport District High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1137.84
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	34.20
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1137.84
Expected Grade 11 MHSA Score	1137.48

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	64.42
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	82.56
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Searsport District High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 3.21 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	3.21
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	3.21
Expected Return on Spending	3.29

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Shead High School

School Information: 2009-2010	
<p style="text-align: center;">School Demographics</p> <p>Special Education: 19.51%</p> <p>Free/Reduced-Price Lunch: 69.57%</p> <p>Limited English Proficiency: 30.89%</p>	<p style="text-align: center;">State Average Demographics, Grades 9-12</p> <p>Special Education: 13.21%</p> <p>Free/Reduced-Price Lunch: 47.94%</p> <p>Limited English Proficiency: 1.89%</p>

		P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓
		P5. School Graduation Rate compared to state average.		✓
	Return	R1. School's return on spending ratio compared to state ratio.		✓
		R2. School's return on spending ratio compared to expected ratio.		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Shead High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1133.98
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	22.37
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1133.98
Expected Grade 11 MHSA Score	1137.76

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	51.63
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	80.61
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Shead High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 2.81 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	2.81
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	2.81
Expected Return on Spending	2.95

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Skowhegan Area High School

School Information: 2009-2010

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Sumner Memorial High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 3.05 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	3.05
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	3.05
Expected Return on Spending	5.01

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Telstar High School

School Information: 2009-2010	
School Demographics Special Education: 14.84% Free/Reduced-Price Lunch: 52.34% Limited English Proficiency: 0.35%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: RSU 44 / MSAD 44 Grade Span: 9-12	Location: Bethel, Maine Enrollment: 283

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

Table 1. Telstar High School Efficiency Profile			Met Criterion?	
Academic Performance and Return on Spending Criteria			Yes	No
Efficiency	Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓
		P2. Average school score on statewide assessment compared to expected score.		✓
		P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*	✓	
		P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓
		P5. School Graduation Rate compared to state average.		✓
	Return	R1. School's return on spending ratio compared to state ratio.		✓
		R2. School's return on spending ratio compared to expected ratio.		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Telstar High School

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1139.43
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	41.87
State Percent Meets or Exceeds	40.78

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1139.43
Expected Grade 11 MHSA Score	1140.19

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	68.74
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	78.97
State Average Graduation Rate	82.77

Your school does not meet criterion P5.

Criteria R1 & R2: Return on Spending of Telstar High School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.44 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	4.44
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	4.44
Expected Return on Spending	4.65

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Upper Kennebec Valley Sr HS

School Information: 2009-2010	
School Demographics Special Education: 17.11% Free/Reduced-Price Lunch: 70.44% Limited English Proficiency: 0%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: RSU 83 / MSAD 13 Grade Span: 9-12	Location: Bingham, Maine Enrollment: 76

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.

		Met Criterion?		
Academic Performance and Return on Spending Criteria		Yes	No	
Efficiency	Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓
		P2. Average school score on statewide assessment compared to expected score.		✓

Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P5: Academic Performance of Upper Kennebec Valley Sr HS

Academic Performance in Criteria P1-P5 uses student scores from the statewide Maine High School Assessment (MHSA) for grade 11. For schools with certain configurations (e.g. 10-12), this may also reflect learning in an earlier school (e.g. 7-9).

Criterion P1: The school's average cumulative scale score on the grade 11 MHSA is compared to the state comparison score of all students taking the same test.

School Average Grade 11 MHSA Score	1134.22
State Comparison Grade 11 MHSA Score	1141.15

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grade 11 MHSA is compared to the state comparison percent.

School Percent Meets or Exceeds	20.13
State Percent Meets or Exceeds	40.78

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grade 11 MHSA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 11 MHSA Score	1134.22
Expected Grade 11 MHSA Score	1136.42

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grade 11 MHSA is compared to the state comparison percent.

School Percent at least Partially Meets	52.34
State Percent at least Partially Meets	70.49

Your school does not meet criterion P4.

Criterion P5:

The school's graduation rate is compared to the state average.

School Graduation Rate	87.20
State Average Graduation Rate	82.77

Your school meets criterion P5.

Criteria R1 & R2: Return on Spending of Upper Kennebec Valley Sr HS

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 1.45 percent of students at your school demonstrated overall proficiency on the academic standards assessed in the grade 11 MHSA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Return on Spending	1.45
State Return on Spending	4.51

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Return on Spending	1.45
Expected Return on Spending	3.10

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Van Buren District Secondary

School Information: 2009-2010	
School Demographics Special Education: 8.94% Free/Reduced-Price Lunch: 60.76% Limited English Proficiency: 29.27%	State Average Demographics, Grades 9-12 Special Education: 13.21% Free/Reduced-Price Lunch: 47.94% Limited English Proficiency: 1.89%
School Characteristics	
District/Union: RSU 88 / MSAD 24	Location: Van Buren, Maine
Grade Span: 9-12	Enrollment: 123

School Efficiency Profiles provide each Maine school and its community with a quick overview of the students' academic performance on the annual statewide assessments, and the school's return on spending. School efficiency is defined by a set of six criteria, four based on students academic performance and two based on the return on spending. High schools' efficiency also includes a graduation rate criterion.
