

School Efficiency Profile: Milbridge Elementary School

School Information: 2009-2010	
School Demographics Special Education: 18.1% Free/Reduced-Price Lunch: 73.73% Limited English Proficiency: 10.34%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%
School Characteristics	
District/Union: Rsu 37/Msad 37	Location: Milbridge, Maine
Grade Span: K-8	Enrollment: 116

School Efficiency Profiles provide each Maine school and its community with a quick overview of their students' academic performance on the annual statewide assessment and the school's return on spending. For the purposes of this profile, school efficiency is defined by a set of six criteria, four based on student academic performance and two based on the return on spending.

Table 1. 1 Elementary School Efficiency Profile

Academic Performance and Return on Spending Criteria		Met Criterion?			
		Grade 4		Grade 8	
		Yes	No	Yes	No
Efficiency Performance	P1. Average school score on statewide assessment compared to state comparison score.	✓			✓
	P2. Average school score on statewide assessment compared to expected score.	✓		✓	
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*	✓		✓	
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓		✓	
Return	R1. School's return on spending ratio compared to state ratio.	✓			✓
	R2. School's return on spending ratio compared to expected ratio.	✓		✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Milbridge Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	455.20
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	844.66
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	90.08
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	63.06
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	455.20
Expected Grade 4 MEA Score	441.97

School Average Grade 8 MEA Score	844.66
Expected Grade 8 MEA Score	844.69

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	97.62
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	86.39
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Milbridge Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 10.92 percent of students in grade 4 & 7.53 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	10.92
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	7.53
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	10.92
Expected Grade 4 Return on Spending	7.32

School Grade 8 Return on Spending	7.53
Expected Grade 8 Return on Spending	7.36

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Mill Pond Elementary School

School Information: 2009-2010	
School Demographics Special Education: 16.57% Free/Reduced-Price Lunch: 63.13% Limited English Proficiency: 0%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%

		Grade 4		Grade 8	
		Yes	No	Yes	No
Efficiency Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓	✓	
	P2. Average school score on statewide assessment compared to expected score.	✓		✓	
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓	✓	
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓	✓	
Return	R1. School's return on spending ratio compared to state ratio.	✓		✓	
	R2. School's return on spending ratio compared to expected ratio.	✓		✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Mill Pond Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	443.68
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	847.50
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	61.34
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	69.50
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	443.68
Expected Grade 4 MEA Score	442.50

School Average Grade 8 MEA Score	847.50
Expected Grade 8 MEA Score	843.93

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	84.84
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	91.62
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Mill Pond Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 8.85 percent of students in grade 4 & 10.06 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	8.85
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	10.06
State Grade 8 Return on Spending	7.55

Your school meets criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	8.85
Expected Grade 4 Return on Spending	7.54

School Grade 8 Return on Spending	10.06
Expected Grade 8 Return on Spending	7.28

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Monmouth Middle School

School Information: 2009-2010	
School Demographics Special Education: 14.13% Free/Reduced-Price Lunch: 40.64% Limited English Proficiency: 0%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%

Return	R1. School's return on spending ratio compared to state ratio.	✓		✓	
	R2. School's return on spending ratio compared to expected ratio.	✓		✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Monmouth Middle School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	444.60
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	846.18
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	62.14
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	64.80
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	444.60
Expected Grade 4 MEA Score	445.35

School Average Grade 8 MEA Score	846.18
Expected Grade 8 MEA Score	846.44

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	87.20
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	91.07
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Monmouth Middle School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 8.78 percent of students in grade 4 & 9.14 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	8.78
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	9.14
State Grade 8 Return on Spending	7.55

Your school meets criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	8.78
Expected Grade 4 Return on Spending	8.54

School Grade 8 Return on Spending	9.14
Expected Grade 8 Return on Spending	8.05

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Mountain View School

	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓			✓
Return	R1. School's return on spending ratio compared to state ratio.	✓		✓	
	R2. School's return on spending ratio compared to expected ratio.	✓		✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Mountain View School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	442.56
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	845.55
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	54.88
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	57.32
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	442.56
Expected Grade 4 MEA Score	442.80

School Average Grade 8 MEA Score	845.55
Expected Grade 8 MEA Score	843.82

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	89.17
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	85.91
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Mountain View School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 8.8 percent of students in grade 4 & 9.17 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	8.80
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	9.17
State Grade 8 Return on Spending	7.55

Your school meets criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	8.80
Expected Grade 4 Return on Spending	7.25

School Grade 8 Return on Spending	9.17
Expected Grade 8 Return on Spending	6.67

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Mt. Desert Elementary School

School Information: 2009-2010

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Mt. Desert Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	448.37
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	852.83
State Comparison Grade 8 MEA Score	847.06

Your school meets criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	75.37
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	82.03
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	448.37
Expected Grade 4 MEA Score	448.47

School Average Grade 8 MEA Score	852.83
Expected Grade 8 MEA Score	851.25

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	99.07
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	92.32
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Mt. Desert Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 5.71 percent of students in grade 4 & 6.21 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	5.71
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	6.21
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	5.71
Expected Grade 4 Return on Spending	9.63

School Grade 8 Return on Spending	6.21
Expected Grade 8 Return on Spending	9.30

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

District/Union: New Sweden School Department	Location: New Sweden, Maine
Grade Span: PK-8	Enrollment: 82

School Efficiency Profiles provide each Maine school and its community with a quick overview of their students' academic performance on the annual statewide assessment and the school's return on spending. For the purposes of this profile, school efficiency is defined by a set of six criteria, four based on student academic performance and two based on the return on spending.

Table 1. 1 Elementary School Efficiency Profile

Academic Performance and Return on Spending Criteria		Met Criterion?			
		Grade 4		Grade 8	
		Yes	No	Yes	No
Efficiency Performance	P1. Average school score on statewide assessment compared to state comparison score.	✓			✓
	P2. Average school score on statewide assessment compared to expected score.	✓			✓
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*	✓			✓
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓			✓
Return	R1. School's return on spending ratio compared to state ratio.	✓			✓
	R2. School's return on spending ratio compared to expected ratio.	✓			✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of New Sweden Consolidated School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	449.62
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	839.96
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	73.35
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	48.37
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	449.62
Expected Grade 4 MEA Score	443.59

School Average Grade 8 MEA Score	839.96
Expected Grade 8 MEA Score	846.88

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	96.30
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	73.89
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of New Sweden Consolidated School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 10.18 percent of students in grade 4 & 6.59 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	10.18
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	6.59
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	10.18
Expected Grade 4 Return on Spending	7.57

School Grade 8 Return on Spending	6.59
Expected Grade 8 Return on Spending	7.60

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Nobleboro Central School

School Information: 2009-2010

	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓	✓	
Return	R1. School's return on spending ratio compared to state ratio.		✓		✓
	R2. School's return on spending ratio compared to expected ratio.		✓		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Nobleboro Central School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	440.08
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	843.88
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	45.55
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	54.96
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	440.08
Expected Grade 4 MEA Score	445.25

School Average Grade 8 MEA Score	843.88
Expected Grade 8 MEA Score	843.94

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	83.62
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	87.52
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Nobleboro Central School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.84 percent of students in grade 4 & 5.87 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	4.84
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	5.87
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	4.84
Expected Grade 4 Return on Spending	8.35

School Grade 8 Return on Spending	5.87
Expected Grade 8 Return on Spending	6.95

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Palermo Consolidated School

School Information: 2009-2010

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Palermo Consolidated School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	442.04
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	845.00
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	48.81
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	66.81
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	442.04
Expected Grade 4 MEA Score	446.05

School Average Grade 8 MEA Score	845.00
Expected Grade 8 MEA Score	844.79

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	79.52
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	85.21
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Palermo Consolidated School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 6.32 percent of students in grade 4 & 8.69 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	6.32
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	8.69
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	6.32
Expected Grade 4 Return on Spending	8.98

School Grade 8 Return on Spending	8.69
Expected Grade 8 Return on Spending	7.84

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

Efficiency Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓		✓
	P2. Average school score on statewide assessment compared to expected score.	✓			✓
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
Return	R1. School's return on spending ratio compared to state ratio.		✓	✓	
	R2. School's return on spending ratio compared to expected ratio.		✓	✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Pembroke Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	442.37
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	843.52
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	53.47
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	59.29
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	442.37
Expected Grade 4 MEA Score	442.20

School Average Grade 8 MEA Score	843.52
Expected Grade 8 MEA Score	843.74

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	79.17
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	84.54
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Pembroke Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 6.95 percent of students in grade 4 & 7.76 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	6.95
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	7.76
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	6.95
Expected Grade 4 Return on Spending	7.32

School Grade 8 Return on Spending	7.76
Expected Grade 8 Return on Spending	7.14

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Pemetic Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	448.66
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	847.95
State Comparison Grade 8 MEA Score	847.06

Your school meets criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	82.34
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	73.30
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	448.66
Expected Grade 4 MEA Score	446.65

School Average Grade 8 MEA Score	847.95
Expected Grade 8 MEA Score	848.48

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	94.44
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	87.00
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Pemetic Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.96 percent of students in grade 4 & 4.42 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	4.96
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	4.42
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	4.96
Expected Grade 4 Return on Spending	8.82

School Grade 8 Return on Spending	4.42
Expected Grade 8 Return on Spending	8.13

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Penobscot Elementary School

School Information: 2009-2010

	P2. Average school score on statewide assessment compared to expected score.		✓		✓
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓	✓	
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓		✓	
Return	R1. School's return on spending ratio compared to state ratio.		✓		✓
	R2. School's return on spending ratio compared to expected ratio.		✓		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Penobscot Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	445.53
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	846.96
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	55.71
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	65.63
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	445.53
Expected Grade 4 MEA Score	446.57

School Average Grade 8 MEA Score	846.96
Expected Grade 8 MEA Score	847.31

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	95.00
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	87.85
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Penobscot Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.99 percent of students in grade 4 & 5.86 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	4.99
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	5.86
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	4.99
Expected Grade 4 Return on Spending	9.04

School Grade 8 Return on Spending	5.86
Expected Grade 8 Return on Spending	8.33

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Perry Elementary School

School Information: 2009-2010	
School Demographics Special Education: 19.19% Free/Reduced-Price Lunch: 55.56% Limited English Proficiency: 0%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%

District/Union: Perry School Department	Location: Perry, Maine
Grade Span: PK-8	Enrollment: 99

School Efficiency Profiles provide each Maine school and its community with a quick overview of their students' academic performance on the annual statewide assessment and the school's return on spending. For the purposes of this profile, school efficiency is defined by a set of six criteria, four based on student academic performance and two based on the return on spending.

Table 1. 1 Elementary School Efficiency Profile

Academic Performance and Return on Spending Criteria		Met Criterion?			
		Grade 4		Grade 8	
		Yes	No	Yes	No
Efficiency Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓		✓
	P2. Average school score on statewide assessment compared to expected score.		✓	✓	
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓	✓	
Return	R1. School's return on spending ratio compared to state ratio.		✓		✓
	R2. School's return on spending ratio compared to expected ratio.		✓	✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Perry Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	442.11
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	844.30
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	54.96
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	55.03
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	442.11
Expected Grade 4 MEA Score	443.75

School Average Grade 8 MEA Score	844.30
Expected Grade 8 MEA Score	842.79

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	83.53
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	87.34
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Perry Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 7.15 percent of students in grade 4 & 7.17 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	7.15
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	7.17
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	7.15
Expected Grade 4 Return on Spending	8.02

School Grade 8 Return on Spending	7.17
Expected Grade 8 Return on Spending	6.93

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Phillips Elementary School

School Information: 2009-2010

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Phillips Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	442.90
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	845.96
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	58.01
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	65.04
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	442.90
Expected Grade 4 MEA Score	442.06

School Average Grade 8 MEA Score	845.96
Expected Grade 8 MEA Score	842.79

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	86.61
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	92.98
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Phillips Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 6.7 percent of students in grade 4 & 7.42 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	6.70
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	7.42
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	6.70
Expected Grade 4 Return on Spending	7.33

School Grade 8 Return on Spending	7.42
Expected Grade 8 Return on Spending	6.66

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
Return	R1. School's return on spending ratio compared to state ratio.		✓		✓
	R2. School's return on spending ratio compared to expected ratio.		✓	✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Princeton Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	441.06
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	844.32
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	53.80
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	57.25
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	441.06
Expected Grade 4 MEA Score	441.91

School Average Grade 8 MEA Score	844.32
Expected Grade 8 MEA Score	841.76

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	86.82
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	84.78
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Princeton Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 6.71 percent of students in grade 4 & 7.13 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	6.71
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	7.13
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	6.71
Expected Grade 4 Return on Spending	7.28

School Grade 8 Return on Spending	7.13
Expected Grade 8 Return on Spending	6.52

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Robbinston Grade School

	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
Return	R1. School's return on spending ratio compared to state ratio.		✓		✓
	R2. School's return on spending ratio compared to expected ratio.		✓		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Robbinston Grade School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	434.74
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	836.61
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	19.44
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	44.41
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	434.74
Expected Grade 4 MEA Score	442.62

School Average Grade 8 MEA Score	836.61
Expected Grade 8 MEA Score	841.35

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	65.74
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	72.99
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Robbinston Grade School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 2.72 percent of students in grade 4 & 6.35 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	2.72
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	6.35
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	2.72
Expected Grade 4 Return on Spending	7.49

School Grade 8 Return on Spending	6.35
Expected Grade 8 Return on Spending	6.36

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Rose M Gaffney School

School Information: 2009-2010

	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓		✓	
Return	R1. School's return on spending ratio compared to state ratio.	✓		✓	
	R2. School's return on spending ratio compared to expected ratio.	✓		✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Rose M Gaffney School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	448.01
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	844.60
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	78.19
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	60.17
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	448.01
Expected Grade 4 MEA Score	443.59

School Average Grade 8 MEA Score	844.60
Expected Grade 8 MEA Score	845.51

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	94.48
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	86.12
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Rose M Gaffney School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 10.8 percent of students in grade 4 & 8.28 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	10.80
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	8.28
State Grade 8 Return on Spending	7.55

Your school meets criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	10.80
Expected Grade 4 Return on Spending	7.96

School Grade 8 Return on Spending	8.28
Expected Grade 8 Return on Spending	7.54

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Sedgwick Elementary School

School Information: 2009-2010	
School Demographics Special Education: 9.18% Free/Reduced-Price Lunch: 64.29% Limited English Proficiency: 0%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%
School Characteristics

Grade Span: K-8	Enrollment: 98

School Efficiency Profiles provide each Maine school and its community with a quick overview of their students' academic performance on the annual statewide assessment and the school's return on spending. For the purposes of this profile, school efficiency is defined by a set of six criteria, four based on student academic performance and two based on the return on spending.

Table 1. 1 Elementary School Efficiency Profile

Academic Performance and Return on Spending Criteria		Met Criterion?			
		Grade 4		Grade 8	
		Yes	No	Yes	No
Efficiency Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓		✓
	P2. Average school score on statewide assessment compared to expected score.		✓		✓
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
Return	R1. School's return on spending ratio compared to state ratio.		✓		✓
	R2. School's return on spending ratio compared to expected ratio.		✓		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Sedgwick Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	438.22
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	842.21
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	37.59
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	57.23
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	438.22
Expected Grade 4 MEA Score	442.62

School Average Grade 8 MEA Score	842.21
Expected Grade 8 MEA Score	842.41

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	78.10
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	86.11
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Sedgwick Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.08 percent of students in grade 4 & 6.06 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	4.08
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	6.06
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	4.08
Expected Grade 4 Return on Spending	7.22

School Grade 8 Return on Spending	6.06
Expected Grade 8 Return on Spending	6.15

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Shapleigh Middle School

School Information: 2009-2010	
School Demographics Special Education: 17.26% Free/Reduced-Price Lunch: 30.6% Limited English Proficiency: 0.82%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%
School Characteristics	
District/Union: Kittery School Department	Location: Kittery, Maine
Grade Span: G4-8	Enrollment: 365

School Efficiency Profiles provide each Maine school and its community with a quick overview of their students' academic performance on the annual statewide assessment and the school's return on spending. For the purposes of this profile, school efficiency is defined by a set of six criteria, four based on student academic performance and two based on the return on spending.

Table 1. 1 Elementary School Efficiency Profile

Academic Performance and Return on Spending Criteria		Met Criterion?			
		Grade 4		Grade 8	
		Yes	No	Yes	No
Efficiency Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓		✓
	P2. Average school score on statewide assessment compared to expected score.		✓		✓
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓	✓	
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓		✓	
Return	R1. School's return on spending ratio compared to state ratio.		✓		✓
	R2. School's return on spending ratio compared to expected ratio.		✓		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Shapleigh Middle School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	444.85
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	847.03
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	59.65
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	68.31
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	444.85
Expected Grade 4 MEA Score	446.80

School Average Grade 8 MEA Score	847.03
Expected Grade 8 MEA Score	848.25

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	90.01
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	91.35
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Shapleigh Middle School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 7.1 percent of students in grade 4 & 7.5 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	7.10
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	7.50
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	7.10
Expected Grade 4 Return on Spending	8.85

School Grade 8 Return on Spending	7.50
Expected Grade 8 Return on Spending	8.37

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: South Bristol Elementary Sch

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of South Bristol Elementary Sch

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	447.57
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	849.59
State Comparison Grade 8 MEA Score	847.06

Your school meets criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	74.94
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	78.38
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	447.57
Expected Grade 4 MEA Score	446.00

School Average Grade 8 MEA Score	849.59
Expected Grade 8 MEA Score	848.58

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	98.99
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	91.99
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of South Bristol Elementary Sch

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 5.99 percent of students in grade 4 & 6.28 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	5.99
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	6.28
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	5.99
Expected Grade 4 Return on Spending	8.76

School Grade 8 Return on Spending	6.28
Expected Grade 8 Return on Spending	8.51

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: St. George School

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of St. George School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	444.02
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	846.56
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	67.51
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	64.54
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	444.02
Expected Grade 4 MEA Score	444.77

School Average Grade 8 MEA Score	846.56
Expected Grade 8 MEA Score	844.76

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	88.89
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	92.14
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of St. George School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 6.59 percent of students in grade 4 & 6.4 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	6.59
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	6.40
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	6.59
Expected Grade 4 Return on Spending	8.04

School Grade 8 Return on Spending	6.40
Expected Grade 8 Return on Spending	7.09

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Stratton Elementary School

School Information: 2009-2010	
School Demographics Special Education: 14.94% Free/Reduced-Price Lunch: 48.28% Limited English Proficiency: 2.3%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%
School Characteristics

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Stratton Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	447.98
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	849.59
State Comparison Grade 8 MEA Score	847.06

Your school meets criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	79.31
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	72.34
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	447.98
Expected Grade 4 MEA Score	444.45

School Average Grade 8 MEA Score	849.59
Expected Grade 8 MEA Score	849.87

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	95.46
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	95.56
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Stratton Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 6.08 percent of students in grade 4 & 5.5 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	6.08
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	5.50
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	6.08
Expected Grade 4 Return on Spending	8.25

School Grade 8 Return on Spending	5.50
Expected Grade 8 Return on Spending	8.92

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Strong Elementary School

School Information: 2009-2010	
School Demographics Special Education: 26.16% Free/Reduced-Price Lunch: 63.37% Limited English Proficiency: 1.16%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%
School Characteristics	
District/Union: Rsu 58/ Msad 58	Location: Strong, Maine
Grade Span: K-8	Enrollment: 172

School Efficiency Profiles provide each Maine school and its community with a quick overview of their students' academic performance on the annual statewide assessment and the school's return on spending. For the purposes of this profile, school efficiency is defined by a set of six criteria, four based on student academic performance and two based on the return on spending.

Table 1. 1 Elementary School Efficiency Profile

Academic Performance and Return on Spending Criteria		Met Criterion?			
		Grade 4		Grade 8	
		Yes	No	Yes	No
Efficiency Performance	P1. Average school score on statewide assessment compared to state comparison score.	✓		✓	
	P2. Average school score on statewide assessment compared to expected score.	✓		✓	
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*	✓		✓	
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓		✓	
Return	R1. School's return on spending ratio compared to state ratio.	✓		✓	
	R2. School's return on spending ratio compared to expected ratio.	✓		✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Strong Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	449.00
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	851.65
State Comparison Grade 8 MEA Score	847.06

Your school meets criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	78.76
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	75.67
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	449.00
Expected Grade 4 MEA Score	442.84

School Average Grade 8 MEA Score	851.65
Expected Grade 8 MEA Score	847.82

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	92.05
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	95.22
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Strong Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 8.72 percent of students in grade 4 & 8.44 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	8.72
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	8.44
State Grade 8 Return on Spending	7.55

Your school meets criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	8.72
Expected Grade 4 Return on Spending	7.42

School Grade 8 Return on Spending	8.44
Expected Grade 8 Return on Spending	7.99

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Surry Elementary School

School Information: 2009-2010

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Surry Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	446.41
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	849.68
State Comparison Grade 8 MEA Score	847.06

Your school meets criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	64.39
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	84.32
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	446.41
Expected Grade 4 MEA Score	445.93

School Average Grade 8 MEA Score	849.68
Expected Grade 8 MEA Score	847.81

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	84.34
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	92.70
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Surry Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 5.88 percent of students in grade 4 & 7.66 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	5.88
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	7.66
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	5.88
Expected Grade 4 Return on Spending	8.80

School Grade 8 Return on Spending	7.66
Expected Grade 8 Return on Spending	8.30

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Swans Island Elementary Sch

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	445.42
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	843.65
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	64.88
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	69.44
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	445.42
Expected Grade 4 MEA Score	445.37

School Average Grade 8 MEA Score	843.65
Expected Grade 8 MEA Score	844.77

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	87.50
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	84.03
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Swans Island Elementary Sch

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 3.5 percent of students in grade 4 & 3.83 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	3.50
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	3.83
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	3.50
Expected Grade 4 Return on Spending	8.60

School Grade 8 Return on Spending	3.83
Expected Grade 8 Return on Spending	7.54

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: The Peninsula School

	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓	✓	
Return	R1. School's return on spending ratio compared to state ratio.		✓	✓	
	R2. School's return on spending ratio compared to expected ratio.	✓		✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of The Peninsula School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	443.95
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	847.01
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	62.25
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	67.09
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	443.95
Expected Grade 4 MEA Score	443.28

School Average Grade 8 MEA Score	847.01
Expected Grade 8 MEA Score	845.36

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	86.67
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	90.53
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of The Peninsula School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 7.79 percent of students in grade 4 & 8.45 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	7.79
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	8.45
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	7.79
Expected Grade 4 Return on Spending	7.65

School Grade 8 Return on Spending	8.45
Expected Grade 8 Return on Spending	7.50

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Tremont Consolidated School

School Information: 2009-2010

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Tremont Consolidated School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	444.99
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	850.27
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	61.43
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	78.34
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	444.99
Expected Grade 4 MEA Score	445.61

School Average Grade 8 MEA Score	850.27
Expected Grade 8 MEA Score	846.08

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	88.84
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	94.01
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Tremont Consolidated School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.43 percent of students in grade 4 & 5.64 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	4.43
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	5.64
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	4.43
Expected Grade 4 Return on Spending	8.45

School Grade 8 Return on Spending	5.64
Expected Grade 8 Return on Spending	7.71

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Trenton Elementary School

School Information: 2009-2010	
School Demographics Special Education: 14.53% Free/Reduced-Price Lunch: 55% Limited English Proficiency: 0%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%
School Characteristics	
District/Union: Trenton School Department	Location: Trenton, Maine
Grade Span: K-8	Enrollment: 117

School Efficiency Profiles provide each Maine school and its community with a quick overview of their students' academic performance on the annual statewide assessment and the school's return on spending. For the purposes of this profile, school efficiency is defined by a set of six criteria, four based on student academic performance and two based on the return on spending.

Table 1. 1 Elementary School Efficiency Profile

Academic Performance and Return on Spending Criteria		Met Criterion?			
		Grade 4		Grade 8	
		Yes	No	Yes	No
Efficiency Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓		✓
	P2. Average school score on statewide assessment compared to expected score.		✓		✓
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
Return	R1. School's return on spending ratio compared to state ratio.		✓		✓
	R2. School's return on spending ratio compared to expected ratio.		✓		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Trenton Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	443.00
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	844.15
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	56.23
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	60.48
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	443.00
Expected Grade 4 MEA Score	444.42

School Average Grade 8 MEA Score	844.15
Expected Grade 8 MEA Score	844.87

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	85.04
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	83.74
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Trenton Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 4.82 percent of students in grade 4 & 5.12 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	4.82
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	5.12
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	4.82
Expected Grade 4 Return on Spending	7.61

School Grade 8 Return on Spending	5.12
Expected Grade 8 Return on Spending	6.70

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Van Buren Dist Elem

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Van Buren Dist Elem

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	443.89
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	839.80
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	62.95
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	44.65
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	443.89
Expected Grade 4 MEA Score	442.05

School Average Grade 8 MEA Score	839.80
Expected Grade 8 MEA Score	842.73

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	89.82
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	78.44
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Van Buren Dist Elem

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 9.41 percent of students in grade 4 & 6.64 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	9.41
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	6.64
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	9.41
Expected Grade 4 Return on Spending	7.34

School Grade 8 Return on Spending	6.64
Expected Grade 8 Return on Spending	6.97

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Vanceboro Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	436.67
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	838.52
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	41.67
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	33.80
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	436.67
Expected Grade 4 MEA Score	442.72

School Average Grade 8 MEA Score	838.52
Expected Grade 8 MEA Score	837.93

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	58.33
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	86.57
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Vanceboro Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 3.12 percent of students in grade 4 & 2.71 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	3.12
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	2.71
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	3.12
Expected Grade 4 Return on Spending	7.53

School Grade 8 Return on Spending	2.71
Expected Grade 8 Return on Spending	5.50

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Vassalboro Community School

	R2. School's return on spending ratio compared to expected ratio.	✓		✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Vassalboro Community School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	444.67
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	849.96
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	66.84
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	73.63
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	444.67
Expected Grade 4 MEA Score	445.13

School Average Grade 8 MEA Score	849.96
Expected Grade 8 MEA Score	845.81

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	91.51
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	93.59
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Vassalboro Community School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 10.73 percent of students in grade 4 & 11.82 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	10.73
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	11.82
State Grade 8 Return on Spending	7.55

Your school meets criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	10.73
Expected Grade 4 Return on Spending	8.44

School Grade 8 Return on Spending	11.82
Expected Grade 8 Return on Spending	7.87

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Veazie Community School

School Information: 2009-2010	
School Demographics Special Education: 17.14% Free/Reduced-Price Lunch: 29.55% Limited English Proficiency: 0%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%
School Characteristics

Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Veazie Community School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	447.39
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	853.41
State Comparison Grade 8 MEA Score	847.06

Your school meets criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	68.89
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	80.90
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	447.39
Expected Grade 4 MEA Score	447.34

School Average Grade 8 MEA Score	853.41
Expected Grade 8 MEA Score	849.74

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	94.21
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	94.25
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Veazie Community School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 6.52 percent of students in grade 4 & 7.74 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	6.52
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	7.74
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	6.52
Expected Grade 4 Return on Spending	9.07

School Grade 8 Return on Spending	7.74
Expected Grade 8 Return on Spending	8.69

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Washburn District Elem School

School Information: 2009-2010	
School Demographics Special Education: 13.6% Free/Reduced-Price Lunch: 54.78% Limited English Proficiency: 0%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%
School Characteristics	
District/Union: Rsu 45/Msad 45	Location: Washburn, Maine
Grade Span: PK-8	Enrollment: 272

School Efficiency Profiles provide each Maine school and its community with a quick overview of their students' academic performance on the annual statewide assessment and the school's return on spending. For the purposes of this profile, school efficiency is defined by a set of six criteria, four based on student academic performance and two based on the return on spending.

Table 1. 1 Elementary School Efficiency Profile

Academic Performance and Return on Spending Criteria		Met Criterion?			
		Grade 4		Grade 8	
		Yes	No	Yes	No
Efficiency Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓		✓
	P2. Average school score on statewide assessment compared to expected score.		✓		✓
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
Return	R1. School's return on spending ratio compared to state ratio.		✓	✓	
	R2. School's return on spending ratio compared to expected ratio.		✓	✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Washburn District Elem School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	441.54
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	843.11
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	52.26
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	59.36
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	441.54
Expected Grade 4 MEA Score	443.80

School Average Grade 8 MEA Score	843.11
Expected Grade 8 MEA Score	845.19

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	82.27
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	79.66
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Washburn District Elem School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 7.53 percent of students in grade 4 & 8.55 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	7.53
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	8.55
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	7.53
Expected Grade 4 Return on Spending	8.02

School Grade 8 Return on Spending	8.55
Expected Grade 8 Return on Spending	7.77

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Whitefield Elementary School

School Information: 2009-2010	
School Demographics Special Education: 21.39% Free/Reduced-Price Lunch: 38.22% Limited English Proficiency: 0%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%
School Characteristics	
District/Union: Rsu 12	Location: Whitefield, Maine
Grade Span: K-8	Enrollment: 187

School Efficiency Profiles provide each Maine school and its community with a quick overview of their students' academic performance on the annual statewide assessment and the school's return on spending. For the purposes of this profile, school efficiency is defined by a set of six criteria, four based on student academic performance and two based on the return on spending.

Table 1. 1 Elementary School Efficiency Profile

Academic Performance and Return on Spending Criteria		Met Criterion?			
		Grade 4		Grade 8	
		Yes	No	Yes	No
Efficiency Performance	P1. Average school score on statewide assessment compared to state comparison score.		✓		✓
	P2. Average school score on statewide assessment compared to expected score.		✓		✓
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
Return	R1. School's return on spending ratio compared to state ratio.		✓		✓
	R2. School's return on spending ratio compared to expected ratio.		✓		✓

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Whitefield Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	442.45
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	843.20
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	54.65
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	57.36
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	442.45
Expected Grade 4 MEA Score	445.41

School Average Grade 8 MEA Score	843.20
Expected Grade 8 MEA Score	844.53

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	83.46
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	81.88
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Whitefield Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 6.62 percent of students in grade 4 & 6.96 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	6.62
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	6.96
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	6.62
Expected Grade 4 Return on Spending	8.58

School Grade 8 Return on Spending	6.96
Expected Grade 8 Return on Spending	7.57

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Whiting Village School

School Information: 2009-2010

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Whiting Village School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	444.91
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	851.68
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	53.33
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	77.08
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	444.91
Expected Grade 4 MEA Score	443.23

School Average Grade 8 MEA Score	851.68
Expected Grade 8 MEA Score	843.71

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	96.67
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	83.33
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Whiting Village School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 7.52 percent of students in grade 4 & 10.41 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	7.52
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	10.41
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	7.52
Expected Grade 4 Return on Spending	7.85

School Grade 8 Return on Spending	10.41
Expected Grade 8 Return on Spending	7.11

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Windsor Elementary School

School Information: 2009-2010

	P2. Average school score on statewide assessment compared to expected score.		✓	✓	
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*		✓	✓	
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*		✓		✓
Return	R1. School's return on spending ratio compared to state ratio.		✓	✓	
	R2. School's return on spending ratio compared to expected ratio.		✓	✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Windsor Elementary School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	443.61
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	846.03
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	56.17
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	63.05
State Percent Grade 8 Meets or Exceeds	62.07

Your school does not meet criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	443.61
Expected Grade 4 MEA Score	444.98

School Average Grade 8 MEA Score	846.03
Expected Grade 8 MEA Score	844.42

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	87.79
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	86.26
State Percent Grade 8 at least Partially Meet	85.84

Your school does not meet criterion P4.

Criteria R1 & R2: Return on Spending of Windsor Elementary School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 7.51 percent of students in grade 4 & 8.39 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	7.51
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	8.39
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	7.51
Expected Grade 4 Return on Spending	8.51

School Grade 8 Return on Spending	8.39
Expected Grade 8 Return on Spending	7.65

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Woodland Consolidated Sch

School Information: 2009-2010

Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Woodland Consolidated Sch

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	444.83
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	847.90
State Comparison Grade 8 MEA Score	847.06

Your school does not meet criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	66.81
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	67.79
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	444.83
Expected Grade 4 MEA Score	444.13

School Average Grade 8 MEA Score	847.90
Expected Grade 8 MEA Score	845.99

Your school meets criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	92.46
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	89.01
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Woodland Consolidated Sch

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 9.16 percent of students in grade 4 & 9.31 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	9.16
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	9.31
State Grade 8 Return on Spending	7.55

Your school meets criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	9.16
Expected Grade 4 Return on Spending	8.15

School Grade 8 Return on Spending	9.31
Expected Grade 8 Return on Spending	8.03

Your school meets criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.

School Efficiency Profile: Woolwich Central School

School Information: 2009-2010	
School Demographics Special Education: 15.43% Free/Reduced-Price Lunch: 26.3% Limited English Proficiency: 0.93%	State Average Demographics, Grades K-8 Special Education: 13.9% Free/Reduced-Price Lunch: 48.72% Limited English Proficiency: 2.15%
School Characteristics	
District/Union: Rsu 01	Location: Woolwich, Maine
Grade Span: PK-8	Enrollment: 324

School Efficiency Profiles provide each Maine school and its community with a quick overview of their students' academic performance on the annual statewide assessment and the school's return on spending. For the purposes of this profile, school efficiency is defined by a set of six criteria, four based on student academic performance and two based on the return on spending.

Table 1. 1 Elementary School Efficiency Profile

Academic Performance and Return on Spending Criteria		Met Criterion?			
		Grade 4		Grade 8	
		Yes	No	Yes	No
Efficiency Performance	P1. Average school score on statewide assessment compared to state comparison score.	✓		✓	
	P2. Average school score on statewide assessment compared to expected score.		✓	✓	
	P3. School percent of students that Meet or Exceed standards on statewide assessment compared to state percentage.*	✓		✓	
	P4. School percent of students that Partially Meet, Meet, or Exceed standards on statewide assessment compared to state percentage.*	✓		✓	
Return	R1. School's return on spending ratio compared to state ratio.		✓	✓	
	R2. School's return on spending ratio compared to expected ratio.		✓	✓	

*This study uses the 2008-2009 Maine Department of Education's standards-based proficiency levels: "Does Not Meet," "Partially Meets," "Meets," and "Exceeds."

Parents, teachers, administrators and all Maine citizens want the best for our children. In every school across the state, there is wonderful work happening and a desire to improve. Improvement starts with good information about where we are, which lays the foundation for discussions about where we aim to be. To serve Maine schools, districts and communities in this work, the Maine Education Policy Research Institute (MEPRI) at the University of Southern Maine has developed a **School Efficiency Profile**. Schools and their communities are encouraged to use this information as one way of examining the school's performance. The identified efficiency data in this profile is from three years: 2008-2010. Please keep in mind that the data for your school may have changed in more recent years, and your school's comparison level may be different using other measures.

Criteria P1-P4: Academic Performance of Woolwich Central School

Academic Performance in Criteria P1-P4 uses student scores from the statewide Maine Education Assessment (MEA) for grades 4 and 8. For schools with certain configurations (e.g. 3-5), this may also reflect learning in an earlier school (e.g. K-2).

Criterion P1: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to the state comparison score of all students taking the same test.

School Average Grade 4 MEA Score	446.07
State Comparison Grade 4 MEA Score	445.92

School Average Grade 8 MEA Score	849.47
State Comparison Grade 8 MEA Score	847.06

Your school meets criterion P1.

Criterion P3: The school's cumulative percent of students who Meet or Exceed proficiency on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 Meets or Exceeds	65.89
State Percent Grade 4 Meets or Exceeds	61.91

School Percent Grade 8 Meets or Exceeds	71.85
State Percent Grade 8 Meets or Exceeds	62.07

Your school meets criterion P3.

Criterion P2: The school's average cumulative scale score on the grades 4 & 8 MEA is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Average Grade 4 MEA Score	446.07
Expected Grade 4 MEA Score	446.99

School Average Grade 8 MEA Score	849.47
Expected Grade 8 MEA Score	847.83

Your school does not meet criterion P2.

Criterion P4: The school's cumulative percent of students who at least Partially Meet proficiency, which includes those who Partially Meet, Meet and Exceed the standard, on the grades 4 & 8 MEA is compared to the state comparison percent.

School Percent Grade 4 at least Partially Meet	92.75
State Percent Grade 4 at least Partially Meet	87.95

School Percent Grade 8 at least Partially Meet	90.09
State Percent Grade 8 at least Partially Meet	85.84

Your school meets criterion P4.

Criteria R1 & R2: Return on Spending of Woolwich Central School

The Return on Spending in Criteria R1 and R2 is a simplified cost-benefit ratio that measures the school's percentage of students that Meet or Exceed the standards in relation to operating expenditure per pupil. Before calculating the Return on Spending, per-pupil operating expenditure was adjusted for geographic price differences using the same regional adjustment factors used in Maine's school funding formula. The Return on Spending indicates that for every \$1,000 spent on each student, 7.97 percent of students in grade 4 & 8.84 percent of students in grade 8 at your school demonstrated overall proficiency on the academic standards assessed in the MEA.

Criterion R1: Average school return on spending is compared to the state return on spending.

School Grade 4 Return on Spending	7.97
State Grade 4 Return on Spending	8.09

School Grade 8 Return on Spending	8.84
State Grade 8 Return on Spending	7.55

Your school does not meet criterion R1.

Criterion R2: Average school return on spending is compared to what would be expected from your school, in terms of prior performance on statewide assessments and community characteristics.

School Grade 4 Return on Spending	7.97
Expected Grade 4 Return on Spending	9.11

School Grade 8 Return on Spending	8.84
Expected Grade 8 Return on Spending	8.49

Your school does not meet criterion R2.

Schools and communities are encouraged to use this information in examining your school's past, current and future academic performance and efficient use of resources. This School Efficiency Profile presents one measure of efficiency to supplement the materials used in your on-going work to improve the education of Maine's children.
