CORE REQUIREMENTS: Pre-requisites and Sequencing

**EYE**: All new, entering students with fewer than 24 transfer credit hours must complete an EYE course in their first semester, unless they are enrolled in Honors or RSP, or are matriculated in a Lewiston Auburn College major or have completed an EYE equivalent at another institution. Pre/co-requisite: College Writing.

**College Writing**: College writing is a pre/co-requisite for EYE courses.

**Quantitative Reasoning**: Quantitative Reasoning is a pre or co-requisite for all Science Explorations courses.

These courses may be taken in any order. Check with your major requirements to determine whether your major requires completion of particular Perspectives courses or particular sequencing.

**Creative Expression**: pre or co-requisite: EYE and College Writing

**Cultural Interpretation**: pre or co-requisite: EYE and College Writing

**Science Exploration**: pre or co-requisite: EYE, College Writing, Quantitative Reasoning

**Socio-cultural Analysis**: pre or co-requisite: EYE and College Writing

**Ethical Inquiry, Social Responsibility, and Citizenship**:

Prerequisite: any three of Creative Expression, Cultural Interpretation, Science Exploration, Socio-cultural Analysis.

**Thematic Clusters**: Students may begin their Thematic Cluster at the same time as they are taking Ethical Inquiry, Social Responsibility, and Citizenship. Other pre-requisites for courses in the Thematic Clusters vary by course. Please check the Core website for course-specific pre-requisites. Students may count only one course in their cluster toward their major.

**Diversity**: Pre-requisites for courses which fulfill the Diversity requirement vary by course. Please check the individual course listing in the catalog for course-specific pre-requisites. Some courses may satisfy both the diversity requirement and other Core or major requirements. Students may not use a single course to satisfy both the diversity and international requirements.

**International**: Pre-requisites for courses which fulfill the Diversity requirement vary by course. Please check the individual course listing in the catalog for course-specific pre-requisites. Some courses may
satisfy both the international requirement and other Core or major requirements. Students may not use a single course to satisfy both the diversity and international requirements.

**Capstone:** Pre-requisites for Capstone courses vary by course. Please check the individual course listing in the catalog for course-specific pre-requisites. Your capstone course will normally be a requirement in your major, so check that course listing first for information on pre-requisites.

**Overlaps between Core and major:** The only restriction on overlaps between a student’s major requirements and core requirements is in the cluster. Only one cluster course may overlap with a student’s major requirements (even if the course has a different prefix from their major).

**Minors in lieu of Thematic Cluster:** A student may substitute a minor of 15 or more credits for their Thematic Cluster requirement. One third of the credits in the student’s minor may be courses that are also applied toward the student’s major.

**Double Major in lieu of Thematic Cluster:** For a double major to substitute for the cluster requirement the second major must require at least fifteen credit hours outside the first major.
