

Host Site Score Card

Organization/Business Name: _____

Contact Name: _____

Contact Email and Phone: _____

After reviewing the matrix for consideration of what makes a good host site for Food Studies interns, please score for your proposed internship opportunity. You may use the comments suggestion to highlight your organizations' strengths or to describe how you might mitigate areas in which you are weak. Use a second page if there are additional details or comments that you'd like to share.

Please note that there are two non-negotiable factors:

- 1) Internships average 10-12 hours per week and host sites must provide ample opportunity for interns to complete 150 before the end of the semester
- 2) Interns will not be placed in private homes, remote work (from the interns' location of choice) may be considered in some situations
