

Department of Geography-Anthropology
Course Research Paper or Project Approval for Majors
(Per 1 January 2008)

Approved classes with acceptable research papers and research communication projects are listed on the back of this form. The two submissions must be from different instructors and you may submit two research papers OR one research paper and one research communication project. At least one must be a traditional research paper, following the department's Geography-Anthropology Research Paper format; therefore, two projects will not be acceptable for the major degree.
