Graduate Assistant Wanted

Looking for someone with an interest in health and community services and supports for older adults and persons with disabilities for project-related work. There will likely be varied tasks ranging from basic research and information-gathering to administrative functions.

Skills needed: excellent written and oral communication skills; ability to work independently and in a timely manner, while following guidance and instruction; ability and willingness to brainstorm; charting and graphing skills helpful; any past experience with the Medicaid system is a bonus.

This job will be 10 hours/ week for the remainder of the semester and possibly into the spring semester.

Please send application materials to Meredith Oestreicher at: moestrei@maine.edu.
