CHANGES TO FINANCIAL AID OFFERS

Financial Aid eligibility can change if a student’s situation changes. These are some conditions that may change your offer and would require you to notify the Office of Student Financial Services:

- Adjustments to reflect actual enrollment for summer, fall, or spring (includes winter session)
- Receipt of assistance not already listed (e.g. scholarships). It is your responsibility to notify this office if you receive outside assistance during the school year.
- Changes in family circumstances
- Changes in data on the FAFSA
- Change in degree program
- Federal and State Grants awarded after initial packaging

Please note that there are circumstances that can be grounds to appeal to change your FAFSA and/or your financial aid offer. Students may reach out to the Office of Student Financial Services at any time to talk to a financial aid counselor about unusual or special circumstances and whether more financial aid may be possible. Written appeals for adjustments to a financial aid offer will be reviewed and a decision communicated within two weeks. Examples of circumstances that may affect eligibility:

- Homeless or at risk of homelessness
- Unsafe relationship or lack of contact with parent
- Loss of employment / income
- Death of a parent or spouse
- Extensive medical expenses paid out of pocket

You will be notified of all financial aid offer changes via email to your USM email address.
CONDITIONS OF YOUR FINANCIAL AID

To preserve your financial aid eligibility, you must:

- Enroll at least half-time (6 credits for Undergraduate and Law students and 3 credits for Graduate students) to be eligible for most types of financial aid
- Remain active in your degree program
- Not be in default on a federal loan or owe money back on a federal grant
- Make satisfactory academic progress

PLEASE NOTE: Repeating courses more than once may impact federal student aid eligibility in some situations – for more information review the Student Financial Services web site at https://usm.maine.edu/student-financial-services/the-impact-of-repeated-coursework/

COST ESTIMATES

Your offer of financial aid is based on an estimated average Cost of Attendance (COA). COA includes tuition and fees; housing and food; and allowances for books, supplies, travel/transportation*, and loan fees. It also includes miscellaneous and personal expenses, such as an allowance for the rental or purchase of a personal computer; costs related to a disability; and reasonable costs for eligible study-abroad programs. (*Law students have a $500 per semester estimated parking fee included in their COA for travel/transportation for fall and spring semesters. This will be removed if a student opts out of a parking space, and this may result in a financial aid adjustment.)

Depending on your specific circumstances, your costs may differ from our estimate. The following offices are responsible for assessing charges that reflect your costs. Information on their websites will help you calculate your approximate University charges. Remember to plan for the purchase of textbooks. The average cost for books/supplies is estimated at approximately $35 per credit hour.

VIEW AND ACCEPT YOUR FINANCIAL AID OFFER ONLINE ON “MAINESTREET”

RECEIPT OF YOUR FINANCIAL AID

Grants and loans will be applied to your student billing account once all required documents are received and reviewed by the Office of Student Financial Services, but no sooner than 10 days before the start of your classes each semester.
Also, the number of credits you are registered for must be equal to the number of credits on which your financial aid is based. Update your credit hours with Student Financial Services to prevent delays. *Graduate students taking 12 or more credits of enrollment each semester may notify their financial aid counselor if they wish to have their higher cost of attendance considered.

Students who accept an offer of Federal Nursing Loan will need to sign a Promissory Note. Failure to sign within the allotted time frame will result in cancelation of the loan. You will be emailed more information from the Shared Processing Center regarding Nursing Loans. Questions regarding your Promissory Note should be directed to the Shared Processing Center at 1-800-308-6148.

Federal Work-Study (FWS) recipients must complete Employment Authorization, I-9 and W-4 Forms with their employer. FWS graduate aides should expect additional information directly from the Admissions Office. Work Study funds are not applied directly to the billing account.

You are responsible for any balance due after aid is applied.

Any program with the abbreviation “EST” (Estimated) in its name is not a final offer and is not ready to be applied to your student account.

Summer Semester and Winter Session

Summer Semester is separate from the fall and spring semesters for financial aid purposes. To qualify for financial aid in the summer semester you must meet the same conditions as required for the fall or spring semesters. Additionally, when you accept your financial aid offer, you must indicate your expected summer enrollment so that we may recalculate your financial aid offer to include the additional semester. Any questions should be directed to your financial aid counselor in the Student Financial Services Office.

Winter Session provides an opportunity to take courses over the winter break and is considered part of the spring semester for financial aid purposes. Adding a Winter Session course may change your financial aid eligibility in spring, but does not always result in additional funds on your financial aid offer. You must notify the Student Financial Services Office once you have registered for the Winter Session class to have your financial aid recalculated. You should contact your financial aid counselor with questions regarding your eligibility.
